

## INSE6120 - Fall 2016 - Projects

### 1.- Team:

\* Lino Antonio Nava Romero - Student ID: 27655975

### 2.- Project:

For the project I select Option 2, precisely the item “Free Wifi”. Nowadays you can find Wifi Hotspot almost everywhere and usually this connection are free and without password, but the issues that corcens us is how secure are these Hotspots. The goal of my project is to test different hotspot and evalute how secure are and propose recommendations to use this hotspots in a secure way.
